Office Action Summary

Art Unit: 3747

Claims 1-18 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for the injector clip of the parent case without length limitations, does not reasonably provide enablement for an injector clip with legs longer than a wall portion. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make the invention commensurate in scope with these claims. The problem herein lies in the fact that a search of the specification shows no mention of the wall section length being shorter than the leg lengths or any other length relationship between these elements.

Claims 1-18 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The problem noted above also creates a problem with new matter entered into the case.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-10 and 12-18 are (as understood) rejected under 35 U.S.C. 103(a) as being unpatentable over Bassler in view of Taylor.

Bassler and Taylor apply as per the final rejection of 5/22/01.

Art Unit: 3747

Claim 11 is rejected under 35 U.S.C. 103(a) as being unpatentable over Bassler and Taylor as applied to claim 10 above, and further in view of Harrell.

Bassler, Taylor and Harrell apply as per the final rejection of 5/22/01.
